

The Transformation of Elgeyo Marakwet County (EMC), Kenya, through 2050

A multi-disciplinary conference convened by the Association of Elgeyo Marakwet Professionals in collaboration with the County Government of Elgeyo Marakwet at Kabiemit Ward; Kipchumba Foundation; and The EMC Agenda*; at Rimoi Campsite on Saturday 22 June 2019, from 9 a.m. to 4 p.m.

Elgeyo Marakwet County offers the potential for scaled up economic activity in the first half of 21st century such that it's possible to have a fully industrialized county in the second half of the century. This calls for concerted effort from all stakeholders and change of development mind-set to enable the people to realize the benefits of belonging to that great county. The Association of Elgeyo Marakwet Professionals is a membership organization that comprises the best of EMC brains and champions for the empowerment of its members and the transformation of the county. This is the first conference of its kind that aims at pooling together theoretical and practical ideas about the development of EMC. The participants are strongly encouraged to study the development potential of the county and come up with more organized approaches towards improvement and transformation of the county. The issues to be tackled by the conference include socio-economic transformation, socio-political improvement, cultural renaissance, environmental sustenance, security, among others.

*A bold development ideas generation and dissemination community program, working on information-based governance, and is hosted by Kipchumba Foundation
